***Resilience. Recovery. Community.***

**Services for people with mental illness, substance use disorders,  
intellectual and developmental disabilities**

## **About the CSB**

The Fairfax-Falls Church Community Services Board (CSB) is the public agency that plans, organizes and provides services for people of all ages in our community who have mental illness, substance use disorders, and/or intellectual disability. The CSB also provides early intervention services for infants and toddlers who have developmental delays.

Our CSB serves residents of Fairfax County and the cities of Fairfax and Falls Church. We are one of 40 Community Services Boards in the Commonwealth of Virginia. State law requires every jurisdiction to have a CSB. We operate as part of Fairfax County government's human services system.

Our staff and contracted services providers include psychiatrists, psychologists, nurses, counselors, therapists, case managers, peer specialists, and "behind the scenes" administrative and support staff. We partner with community organizations, faith communities, businesses, schools and other local government agencies in many ways to provide the services people need, and to be good neighbors in the community.

## **Who is eligible for our services?**

We serve people of all ages who have mental illness, substance use disorders, and/or intellectual disability. Women and girls who are pregnant and intravenous drug users have priority for substance use disorder services. Most CSB services are primarily for people whose conditions seriously impact their daily functioning. However, anyone with a related concern may contact the CSB for help in finding appropriate treatment and resources. All children up to age three who have developmental delays and meet certain criteria are eligible for Infant and Toddler Connection services.

### **Qualifications**

- All ages.
- No specific income requirements, depends on the service.
- For residents of Fairfax County and the cities of Fairfax and Falls Church.

## **What services does the CSB provide?**

Since many people who seek CSB services have "co-occurring" disorders, such as mental illness **and** substance use disorder, our services are categorized not by specific disability but by how they are provided. Our services are organized into three main categories:

- Front door services include entry and screening, crisis stabilization, detoxification as well as services for people who are incarcerated or court-involved.
- Treatment services include outpatient and day treatment as well as intensive treatment in residential settings and in the community.

- Community living services include daytime supported employment, group homes, support coordination, education and outreach.

Some services are provided by CSB staff. Others are provided through contracts with local partner organizations.

### **Where are services provided?**

Services are provided in a variety of settings throughout the county – in an office, in a group home or residential setting, or out in the community. Visit our website at [www.fairfaxcounty.gov/csb](http://www.fairfaxcounty.gov/csb) and click on “Locations” on the left side for more information.

### **Is there a fee for services?**

Fees are charged to help offset the cost of providing CSB services.
